(314) 320-5554 | nick@nickoconnor.dev | St. Louis, MO | [linkedin.com/in/nicholas--oconnor/](https://www.linkedin.com/in/nicholas--oconnor/)

EDUCATION

Bachelor of Science | Computer Science | University of Colorado Boulder (CU Boulder)
Graduated Summa Cum Laude

2021 – 2025
GPA: 3.833/4.0

WORK EXPERIENCE

Epic Beaker Desktop Support | Barnes Jewish Hospital | St. Louis, MO

Oct 2025 – Present

- Executed an Epic Technical Dress Rehearsal (TDR) for 20+ Barnes Jewish locations in the greater St. Louis area
- Collaborated with nursing and laboratory staff to troubleshoot issues in real-time without disrupting workflows
- Troubleshoot application errors, interface issues, and workflow discrepancies impacting operations
- Trained 4 new employees on workflows, escalation procedures, and issue resolution while maintaining previous schedules

Software Engineer Intern | Studio2Stadium | Boulder, CO

Aug 2024 – May 2025

- Contributed to a preexisting web application built with React, NodeJS, and Prisma ORM
- Developed new pages and UI elements while adhering to established Figma design templates
- Built and modified backend functionality, including updates to API endpoints and application logic
- Created a prototype for a cross-platform mobile app using React Native, Next.js, and Prisma
- Participated in feature planning, debugging, and iterative development in a fast-paced startup environment

Dedicated Desktop Support: Team Lead | CU Boulder | Boulder, CO

May 2024 – May 2025

- Led and delegated tasks for a 14-member IT support team
- Presented the team's statistics, cases, and areas of concern in weekly meetings to managers
- Assisted with Active Directory and Group Policy for new university staff
- Trained 6 new technicians: taught them how to manage workflows, prepared them for level 2 access, and more
- All this while continuing previous responsibilities of handling service requests and incident tickets

Dedicated Desktop Support | CU Boulder | Boulder, CO

Mar 2024 – May 2025

- Provided tier 1 & 2 IT support to over 150 university departments across Windows, MacOS, and iOS platforms
- Performed workstation imaging, diagnostics, application troubleshooting, network support, and preventative maintenance
- Logged and resolved 20+ service requests and incident tickets per week using ServiceNow
